EDUCATION

2023-2026

Queen Mary's College

Bachelor Degree of Computer Science

SKILLS

- Programming and Software Development
- Problem - Solving Techniques
- Web Development
- Machine Learning

PERSONAL STATEMENT

Enthusiastic and detail-oriented fresher with a strong passion for coding and software development. Proficient in Python, Java, C++, HTML, and CSS, with a keen interest in problem-solving and developing efficient solutions. Seeking an entry-level position where I can apply my programming skills, learn new technologies, and contribute to innovative projects.

WORK EXPERIENCE

intern- Online Payment Fraud Detection using Machine learning

Present

- Developing a machine learning model to detect fraudulent transactions in online payments.
- Preprocessed and analyzed transaction data to identify patterns and anomalies.
- Implemented algorithms in Python using libraries like **scikit-learn**, **pandas**, and **NumPy**.
- Evaluated model performance using precision, recall, and F1-score metrics.
- Worked on improving detection accuracy and reducing false positives
