

Priyadharshini Suresh

Chennai | 7305443328 | priyaoff04@gmail.com | LinkedIn | GFG Profile

Profile

Detail-oriented and creative professional with hands-on experience in web development and building user-focused interfaces. Skilled in HTML, CSS, and JavaScript, with a strong interest in User Experience (UX) design. Eager to learn UX principles and tools, understand user behavior, and contribute to designing intuitive and accessible digital experiences.

Skill Set

- **Front-End Development:** HTML, CSS, JavaScript, Responsive Web Design
- **Programming Languages:** Python, Java
- **UX Awareness:** Understanding of user-centered design principles, layout design, and workflow optimization
- **Other Skills:** Problem-solving, Analytical Thinking, Collaboration

Education

Queen Mary's College, Bachelor of Science in Computer Science

- CGPA: 8.43 (Approx. 80%)
- **Relevant Coursework:** Human-Computer Interaction, Web Design, Computer Architecture

Projects

Online Payment Fraud Detection using Machine Learning (Python)

- Built a real-time fraud detection system using Python.
- Applied Random Forest and Logistic Regression, with feature engineering, preprocessing, and hyperparameter tuning.
- Achieved 95% accuracy, reducing false positives and improving transaction security.
- Conducted cross-validation and model evaluation (precision, recall, F1-score).
- Used pandas, NumPy, scikit-learn, matplotlib for data manipulation, model training, and visualization.

Digital Notice Hub – TechPower Solutions

- Developed a centralized web application for departmental notices using JSP, Servlets, MySQL.
- Built responsive UI with HTML, CSS, JavaScript; deployed on GlassFish Server.
- Implemented secure authentication and role-based access control.
- Optimized database queries for concurrent users, reducing retrieval time by 30%.
- Conducted unit and integration testing; maintained version control using Git.

Focus-Oriented Study Planner

- Designed and developed a web application to help students plan focus sessions and track productivity.
- Focused on intuitive dashboard layout, task flow, and user experience optimization.
- Built responsive interfaces using HTML, CSS, and JavaScript for smooth and accessible interactions.
- Collaborated on features like notifications, task tracking, and distraction management to enhance usability.

Certifications

- Techpower Solution – Web Development Internship
- Placemantra – Machine Learning in Python Internship
- Object-Oriented Programming – Infosys Springboard
- Fundamentals of Web Development – Edunet Foundation
- IBM Front-End Developer Professional Certificate – Coursera (Pursuing)

Additional Information

- Languages:
 - Spoken: Tamil, English
 - Read and Written: Tamil, English, Hindi
- Hobbies: Travel, gardening.
